

Assurance of Student Learning Annual Results by College Final Results Academic Year 2022-2023

The following heat maps reflect the final results of the Assurance of Student Learning (ASL) annual review for the academic year 2022-2023.

Final results reflect the average of the ASL Initial Review, the ASL Secondary Review, and any reviews conducted by the Faculty Associate for Assessment due to score variances (score variance > 1 between UAAC member and Associate Dean) in the ASL Initial Review.

Results are presented by college and provide the average score of individual programs as well as the College or School's average results and average action plan scores.

The annual ASL Review follows a 3-year cycle in which all 7 components are reviewed and scored in Year 1. Only Results and Action Plans are reviewed and scored in Years 2 and 3. Academic year 2022 – 2023 was a Year 3.

Thank you to all Assessment Coordinators, faculty, members of the University Assessment Advisory Committee, and Associate Deans who contributed to this round of the Assurance of Student Learning at WCU. It is a university-wide effort!

Average results and action plan scores for all WCU programs are below. We should all be very proud of this achievement!

Average Results Score - All Programs

3.49

Average Action Plans Score - All Programs
