

SECTION LEVEL DESIGNATION FOR COURSES WITH A **community- engaged learning** COMPONENT

why designate my course as a community- engaged learning course?

For students:

- This designation allows students to know in advance which courses have CEL components and for students who want to be more engaged with community partners, they can opt into these specific sections of courses.

For Faculty:

- Faculty who utilize this pedagogy can now officially indicate it for students and colleagues, and potentially highlight this teaching and learning strategy as part of the faculty review process.

For the Center for Civic Engagement and Social Impact:

- This designation will allow CCESI to better track CEL and acknowledge existing CEL courses across campus.

how can i designate my course as a community- engaged learning course?

The process is quick and easy!
