STUDENT: I tested positive for COVID-19.

Fill out the WCU COVID-19 Notification form. [Click Here](#).

On campus residents are expected to isolate in their primary residence off-campus. If unable to return to your primary residence, you must isolate in place.

A COVID-19 Notification note will be provided upon submission of positive COVID-19 At-Home test or confirmation by a medical provider.

Contact your individual professors to find out how they want you to keep up with coursework.

You may return to class if it has been at least 5 full days after testing positive, your symptoms have improved, and you are fever-free for 24 hours without medication.

Wear a well-fitted mask through day 10.

Consult your medical provider if needed.

A student in my course reports a positive case of COVID-19.

What do I do now?

FACULTY

Decide best way to continue instruction for isolating student

Zoom student in using classroom tech

Record or otherwise post class presentations

Meet with student to develop alternative plan

What about me? Was I exposed? Do I quarantine? See next page for the Faculty Exposure flowchart

Follow guidance provided by the Health & Wellness team member regarding return to class.

I was exposed to someone who is positive for COVID-19.

What do I do to protect myself and those I come into contact with?

According to the CDC you no longer need to quarantine for exposure to COVID-19.

However, wear a well-fitted mask (KN-95, N-95) as soon as you find out you were exposed starting from day 1. Day 1 is the first full day after exposure through day 10.

Get tested at least 5 full days after your last exposure.
