

M.S. IN HUMAN RESOURCE MANAGEMENT

In an ever more competitive landscape, human resource professionals plan, direct and coordinate the administrative functions of an organization. They oversee the recruitment, interviewing and hiring of new staff; consult with top executives on strategic planning; and serve as a link between an organization's management and its employees. Take your career to the next level with the Master of Science in Human Resource Management (MSHRM) from West Chester University.

The MSHRM trains students in all facets of human resource management, allowing them to put their skills to practice at the highest levels across industries and organizational types. Our program focuses on the development of skills in the areas of: compensation and benefits; employee and labor relations; ethics; global human resources; human resource metrics; leadership and change management; and workforce planning.
