# Alumni Survey for Advanced Educator Preparation Programs – Introduction

The following tables include responses to questions from program completers of West Chester University of Pennsylvania’s advanced-level educator preparation programs. The survey included completers from December 2018, January 2019, May 2019, and August 2019 and was administered online via Qualtrics from December 1-16, 2020. The Unit sent three email reminders and offered a \$5 incentive to encourage completers to submit a survey response.

The number of program completers sent surveys was 43 and the number of program completers who responded was 9. In accordance with CAEP’s definition of completer<sup>1</sup> for Standard 4, the total valid number of completers was 3 (see Q4). The number of respondents who do not meet this definition was 6. These data are not included in this report and will be analyzed separately by the Unit. This resulted in a survey response rate of 7%.

The subsequent data tables display results on completers’ satisfaction with their preparation. The first sub-section titled “Educator Preparation Provider” details the aggregate data for all respondents who meet CAEP’s definition of completer. The following sub-sections disaggregate the data by program. Please note, the number of not applicable and missing responses is provided, however, they are excluded from the table percentages and totals. Additionally, where survey questions allow for respondents to select multiple answers, the tables present the frequency of each response and the percent of total respondents for the question.
