4. Please provide any additional information about the information provided above:

The Basic Skills requirement for entry into an educator preparation program is waived for any student admitted on or before June 30, 2021 as written into law by the passing of Act 136 of 2020. Act 55 of 2022 signed into law on July 8, 2022, requires the Secretary of Education to waive the requirement to satisfactorily complete the assessment of basic skills required under section 1207.3 and 22 Pa. Code § 49.18(c) (relating to assessment) for 3 years from July 8, 2022 through July 8, 2025. This applies to all students who enter preparation programs during this period as well as otherwise qualified candidates for licensure who make application during this period.

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

The training provided responds to the identified needs of local educational agencies or the state through candidate field work in surrounding school districts. Lesson plans are taught, developed, and implemented based upon state standards in four essential categories/domains. Lesson plans and field placements are consistently evaluated by the educator preparation programs. Furthermore, the training provided is closely linked with the needs of schools and the instructional decisions new teachers face through ongoing and consistent planning of modifications, adaptations, and accommodations of different student learners. Candidates encounter a wide range of students during a variety of field experiences in the surrounding area school districts. Special education dual majors must, in addition to the 30-hour special education core, complete requirements of the eleven general education programs with which they dual. Further, all general education majors must complete three hours of coursework to prepare for working with students with

limited English proficiency (LAN/ENG 382) and nine credits of coursework to prepare for addressing the needs of students with exceptionalities in the inclusive classroom. The nine credits are divided into five credits (EDA 103 and EDA 303) taught by Special Education faculty and four credits taught by other departments (Literacy and Educational Foundations & Policy Studies). Due to the variety of field placements in urban, suburban, and rural school districts candidates have specific opportunities to work in schools with high levels of students participating in Title I, and free and reduced lunch programs.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

The program plans to add 15 prospective mathematics teachers.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

We work with Admissions to determine the best ways to reach potential teacher candidates.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We need to continue to work with Admissions to determine the best ways to reach potential teacher candidates, particularly candidates from diverse backgrounds. We are also piloting teaching interest events with high school students in mathematics.

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2022-23)

2. Describe your goal.

The program plans to add 10 prospective science education teachers.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

For the graduate students, we tried to ensure the MEd program was visible on the web and that we were responsive to inquiries. For the undergraduate students, we made sure we had a presence at recruitment events such as the fall open houses.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We have met our goal for the last couple of years, so we will continue using our current strategies.

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\)\(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in special education in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

The program plans to add 90 prospective special education teachers.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

Recruitment efforts – department participate in the different events organized by the admissions office (i.e., experience WCU day and accepted students' day) events to share highlights about our program with prospective students and their families. Opportunity to incorporate additional micro credentials for undergraduate students (i.e., coursework leading to the autism education endorsement). Collaboration with LEA partners to offer paid para-professional positions for our stand-alone majors. Students gain additional hours in the field under the guidance of carefully selected special education mentor teachers. Distance Education – a few courses have been approved for Distance Education offerings which provide additional opportunities for flexible scheduling for some students.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Intentional one-on-one advising by special education faculty. This helps ensure students stay on track and do not drop the major or experience delays in program completion. Pacing guide to assist students plan out their progress and projected program completion timelines.

6. Provide any additional comments, exceptions and explanations below:

The program added 61 prospective special education teachers. Our program took a major hit in enrollment during the transition to the new PK-12 program and the pandemic. We are actively working to retain all students who select our major.

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in special education in 2022-23? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

The program plans to add 85 prospective special education teachers.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in special education in 2023-24? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

The program plans to add 100 prospective special education teachers.

Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Assessment Pass Rates

THIS PAGE INCLUDES:

>> [Assessment Pass Rates](#)

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Provide the following information about the approval or accreditation of your teacher preparation program. ([§205\(a\)\(1\)\(D\)](#), [§205\(a\)\(1\)\(E\)](#))

Note: This section is preloaded from the prior year's IPRC.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

 Yes

 No

- b. use technology effectively to collect data to improve teaching and learning

 Yes

 No

- c. use technology effectively to manage data to improve teaching and learning

 Yes

 No

- d. use technology effectively to analyze data to improve teaching and learning

 Yes

 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Our teacher education programs believe the best way to prepare candidates for technology connected teaching is to have them experience it. We believe a professional educator appropriately integrates technology for instruction. Examination of course syllabi reveal technology use (e.g., Desire 2 Learn [D2L]). D2L has integrated tools to collect and measure data (i.e., grades). Many syllabi also address the integration of assistive technology to teach specific content areas, such as health activities, or to show the different levels of technology available. Candidates use TK20 by Watermark in teacher education programs to capture assessment data. Technology use is evaluated on Educator Preparation Provider (EPP) assessments (e.g., lesson plan, Skyfactor Benchworks Teacher Education Exit Assessment, alumni survey). In 2019-2020, the EPP first administered a technology rubric to mentor teachers to evaluate the ability of our student teachers to integrate technology within the curriculum. This assessment is aligned with the International Society for Technology in Education Standards for Educators (ISTE) and the Danielson Framework for Teaching. The EPP used the rubric again during the 2021-2022 academic year. Our Director of Instructional Design and Technology assists faculty with designing and developing online courses using the Analysis, Design, Development, Implementation, and Evaluation (ADDIE) model and incorporating Universal Design for Learning (UDL) principles into course design. Courses are designed over a 6–12 month period with the goal of obtaining Quality Matters Online Course Certification. The focus of the design process is on ensuring the alignment of course objectives to course activities and assessments. Technology selected for use in online courses introduces students to technology commonly utilized in PK-12 classrooms. Active learning classrooms within the College of Education and Social Work give candidates the opportunity to participate in a 21st-century classroom active learning pedagogy. Each pod includes a digital display where faculty can project or ask candidates to project. Candidates and faculty can connect wirelessly to the display. Faculty

members who seek to teach one of these classrooms must go through rigorous training to maximize the opportunity to engage all candidates. Faculty are encouraged to conduct research based on their teaching methods in active learning classrooms.
